

COMPONENTS:

INSTRUCTIONS:

1. Insert the Banner Bar through the slots at the top of the QuickFold Upright
2. Attach the Velcro® strip on the top of the Banner to the Velcro® strip on the Banner Bar inserted at the top of the QuickFold Upright
3. Attach the Velcro® strip of the other Banner Bar to the Velcro® strip at the bottom of the Banner to hold it flat and taut.

CEB BANNER KITS

Banners are ideal for displaying more detailed information in addition to your CEB Kit. Unlike traditional pop-up banner stands, these graphics can be easily switched out to engage a different audience from show to show. Our break-free system is also more durable and longer lasting than the traditional spring loaded pop-ups that tend to break unexpectedly after use.

Not just for trade shows, these banners are a perfect compliment for community events, corporate branding, and event in-store message displays.

Our team of graphic designers will create a visually impactful display guaranteed to make your message standout all on a durable, reusable printed fabric with an easy to set up stand. We hope you love your new Banner Stand Kit and can't wait to see your exciting, attention-grabbing graphics in action.
