CUSTOM EXHIBIT BACKDROPS™

ARTWORK GUIDELINES

Set your file to full size (92" x 120" for a standard 8'H x 10'W booth). Check the resolution of your file by viewing the graphic at full size (zoom to 100%) on your computer screen. If the image looks unfocused, blurry, or pixilated, the resolution is too low. Embed all graphics into one file. There should be no links. The best results are achieved in Adobe Illustrator.

SIZE
Our printing surface area is 120" wide. We can print any size as long as one of the sides is no wider than 120".

COLOR
If you require a specific color, please provide us with a PMS# (Pantone Matching System)

FONTS
Convert all text to outlines.

IMAGES
Please embed all raster graphics. Images, such as photographs, must be at least 300 DPI at the final print size.

DPI
"Dots Per Inch" is a measurement of how much detailed color information a raster image contains. The higher the DPI, the more subtle details will be noticeable.

PROOF
We send you a digital proof for you to review and approve before production.

FABRIC
The material is 8 oz, 100% polyester that may shrink or stretch about 2% during printing.

FORMATS

PREFERRED	ALSO ACCEPTED	NOT ACCEPTED
• PDF	• PNG	• Microsoft Word
• AI	• JPG	
• EPS	• PSD
